

# JAMAICA EGG FARMERS SAY THANKS FOR SUPPORT

The Jamaica Egg Farmers Association wishes to advise the public that the special on eggs ended on May 1, 2020 with the expiry of government's temporary COVID-19 subsidy. Thanks to the Ministry of Industry, Commerce, Agriculture & Fisheries, the government and our consumers for their support in reducing the massive inventory of eggs through the subsidy which followed the closure of hotels and restaurants because of COVID-19.

We look forward to providing adequate supplies of farm fresh eggs from our farmers, supermarkets and other marketing interventions during this COVID-19 period at market prices.

*An egg a day...the healthy way!*
